PRODUCT CHARACTERISTICS

Spray-Lock® 9500 is a versatile spray adhesive naturally suited for adhering vinyl composition tile (VCT) in commercial and residential applications.

Spray-Lock® 9500 uses 80% less adhesive compared to trowel applied bucket adhesive. Spray-Lock’s® instant shear strength allows for all traffic without any adhesive indentation, displacement, or movement associated with heavy weight bearing loads.

Spray-Lock® 9500 is a non-toxic, <0.0g/ml VOC product that allows you to occupy your space as soon as installation has been completed.

ADVANTAGES

• Use 80% less adhesive
• Allow all traffic immediately (including hospital beds)
• <0.0g/ml VOC content
• Non-Toxic, water based adhesive
• No need to shut down HVAC
• Easy water cleanup while adhesive is still wet
• Non-flammable
• High moisture and pH resistance
• No offensive odors
• No trowel marks

SUITABLE SUBSTRATES

Spray-Lock® 9500 bonds vinyl composition tile (VCT) to the following properly prepared smooth, flat, dust free substrates:

• Concrete
• Underlayment grade plywood
• Metal
• Fiberglass
• Existing VCT

DO NOT USE FORMULA 6500 FOR VINYL COMPOSITION TILE.

TECHNICAL CHARACTERISTICS

• Spray-Lock® 9500 provides immediate shear strength after installation allowing immediate access to finished floor.

• Spray-Lock® 9500 is solvent free, emits no harmful fumes and contains <0.0g/ml VOC (Volatile Organic Compounds) content. According to EPA test method 24.

• Spray-Lock® 9500 uses a non-ozone depleting HFC propellant

• Withstands 7 lbs. of vapor emissions/ 85% RH and 11 pH

**THE UPSIDE-DOWN AEROSOL WITH LEVER**
Slide lever prongs underneath valve collar, point tip towards substrate. Press lever to spray adhesive. This option is perfect for all sized jobs. Cutting in is simple and most importantly it keeps the installer standing upright.

Section 1: PRODUCT AND COMPANY IDENTIFICATION

Product Name: Spray-Lock 9500 Spray Adhesive
Product Use: Adhesive
Manufacturer/Supplier: Interlock Industries, Inc.
5959 Shallowford Road
Suite 405
Chattanooga, TN 37421
Phone Number: 423-305-6151
Emergency Phone: Chemtrec: 1-800-424-9300
Customer Contract No. 202471
Date of Preparation: January 13, 2011

Section 2: HAZARDS IDENTIFICATION

EMERGENCY OVERVIEW

CAUTION
While most unlikely, product may cause eye, skin and respiratory tract irritation for those who are highly sensitive. Just as breathing anything other than normal ambient air, overexposure of vapors may cause dizziness and CNS depression. Containers, while non-flammable, are pressurized, and can burst under fire conditions.

Potential Health Effects: See Section 11 for more information.

Likely Routes of Exposure: Skin contact, eye contact, and inhalation.
- Eye: May cause eye irritation.
- Skin: May cause skin irritation.
- Ingestion: Not a normal route of exposure.
- Inhalation: May cause respiratory tract irritation.

Chronic Effects: Prolonged or repeated contact may dry skin and cause irritation.

Signs and Symptoms: Symptoms may include discomfort or pain, excess blinking and tear production, with marked redness and swelling of the conjunctiva. Symptoms may include redness, edema, drying, defatting and cracking of the skin.

Medical Conditions Aggravated By Exposure: Asthma. Allergies.

Target Organs: Skin, eyes and respiratory system.

This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

This product is a hazardous chemical as defined by NOM-018-STPS-2000.

Potential Environmental Effects: May cause long-term adverse effects in the aquatic environment. See Section 12 for more information.

* Per NOM-018-STPS-2000
Section 4: FIRST AID MEASURES

**Eye Contact:** In case of contact, immediately flush eyes with plenty of water. If easy to do, remove contact lenses, if worn.

**Skin Contact:** In case of contact, immediately flush skin with plenty of water. Remove contaminated clothing and shoes. Wash clothing before reuse. Call a physician if irritation develops and persists.

**Inhalation:** Move exposed person to fresh air.

**Ingestion:** If swallowed, do NOT induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person.

**General Advice:** In case of accident or if you feel unwell, seek medical advice immediately (show the label or MSDS where possible).

**Note to Physicians:** Symptoms may not appear immediately.

Section 5: FIRE FIGHTING MEASURES

**Flammability:** Not flammable by WHMIS/OSHA criteria.

**Means of Extinguishing:**
- Suitable Extinguishing Media: Powder, water spray, foam, carbon dioxide.
- Unsuitable Extinguishing Media: Not available. Use water spray to keep fire-exposed containers cool. Containers, while non-flammable, are pressurized. Remove from area if this can be done without risk.

**Products of Combustion:** May include, and are not limited to: oxides of carbon.

**Explosion Data:**
- Sensitivity to Mechanical Impact: Not available.
- Sensitivity to Static Discharge: Not available.

**Protection of Firefighters:** Fire-fighters should wear appropriate protective equipment.

Section 6: ACCIDENTAL RELEASE MEASURES

**Personal Precautions:** Put on appropriate personal protective equipment (see Section 8). Ruptured cylinders may rocket.

**Environmental Precautions:** Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

**Methods for Containment:** Contain and/or absorb spill with inert material (e.g. sand, vermiculite), then place in a suitable container. Do not flush to sewer or allow to enter waterways. Use appropriate Personal Protective Equipment (PPE).

**Methods for Clean-Up:** Scoop up material and place in a disposal container. Allow gas to dissipate harmlessly into the atmosphere.

**Other Information:** Not available.
Section 7: HANDLING AND STORAGE

Handling: Observe good industrial practices. Do not eat, drink or smoke when using the product. Pressurised container: protect from sunlight and do not expose to temperature exceeding 48°C (120°F). Do not pierce or burn, even after use. Avoid breathing gas. Avoid breathing vapour or mist.

Storage: Store in accordance with local regulations. Protect from freezing and from direct sunlight. Store in a dry, cool and well-ventilated area, away from incompatible materials see section 10) and food and drink. Use appropriate containment to avoid environmental contamination.

Section 8: EXPOSURE CONTROLS / PERSONAL PROTECTION

<table>

Exposure Guidelines

Engineering Controls: Use ventilation adequate to keep exposures (airborne levels of dust, fume, vapor, etc.) below recommended exposure limits.

Personal Protective Equipment:

- **Eye/face Protection:** As in any construction environment, use approved safety glasses, as described in OSHA 29 CFR 1910.133. If necessary, refer to U.S. OSHA 29 CFR 1910.133 or appropriate Canadian standards.
- **Hand Protection:** In the event of prolonged or repeated contact with hands, users with sensitive skin should use appropriate gloves.
- **Skin and Body Protection:** Wear appropriate clothing and shoes for the task.
- **Respiratory Protection:** In case of insufficient ventilation, wear suitable respiratory equipment.

General Hygiene Considerations: Handle according to established industrial hygiene and safety practices.

Section 9: PHYSICAL AND CHEMICAL PROPERTIES

- **Appearance:** Clear.
- **Color:** White.
- **Odour:** Sweet.
- **Odour Threshold:** Not available.
- **Physical State:** Gas/Pressurized Liquid.
- **pH:** 5.5 - 7.5
- **Viscosity:** Not available.
- **Freezing Point:** Not available.
- **Boiling Point:** Not available.
- **Flash Point:** Not available.
- **Evaporation Rate:** Not available.
- **Lower Flammability Limit:** Not available.
- **Upper Flammability Limit:** Not available.
- **Vapor Pressure:** Not available.
- **Vapor Density:** > 1 (Air = 1)
Specific Gravity: 1.03
Solubility in Water: Miscible.
Coefficient of Water/Oil Distribution: Not available.
Auto-ignition Temperature: Not available.
Percent Volatile, wt. %: Not available.
VOC content, wt. %: Not available.

**Section 10: STABILITY AND REACTIVITY**

**Stability:** Stable under normal storage conditions. Contents under pressure. Container may explode if heated. Do not puncture. Do not burn. Keep in a cool place.

**Conditions of Reactivity:** Heat. Incompatible materials.

**Incompatible Materials:** Oxidizers. Nitrates. Chlorine bleach.

**Hazardous Decomposition Products:** May include, and are not limited to: oxides of carbon.

**Possibility of Hazardous Reactions:** No dangerous reaction known under conditions of normal use.

**Section 11: TOXICOLOGY INFORMATION**

**EFFECTS OF ACUTE EXPOSURE**

**Component Analysis**

* See Section 15 for more information.

**Mutagenicity:** Not hazardous by WHMIS/OSHA criteria.

**Reproductive Effects:** Not hazardous by WHMIS/OSHA criteria.

**Developmental Effects:**

**Teratogenicity:** Not hazardous by WHMIS/OSHA criteria.

**Embryotoxicity:** Not hazardous by WHMIS/OSHA criteria.
Respiratory Sensitization: Not hazardous by WHMIS/OSHA criteria.
Skin Sensitization: Not hazardous by WHMIS/OSHA criteria.
Toxicologically Synergistic Materials: Not available.

Section 12: ECOLOGICAL INFORMATION

Ecotoxicity: No known significant effects or critical hazards.
Persistence / Degradability: Not available.
Bioaccumulation / Accumulation: Not available.
Mobility in Environment: Not available.

Section 13: DISPOSAL CONSIDERATIONS

Disposal Instructions:
This material must be disposed of in accordance with all local, state, provincial, and federal regulations.

Section 14: TRANSPORTATION INFORMATION

DOT Classification
UN1950, Aerosols, non-flammable, Class 2.2, ORM-D (< 1L)

TDG Classification
UN1950, Aerosols, non-flammable, Class 2.2, Limited Quantity (< 1L)

NOM-004-SCT2-1994 Classification
UN1950, Aerosols, non-flammable, Class 2.2, Limited Quantity (< 1L)

Section 15: REGULATORY INFORMATION

Federal Regulations

Canadian: This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations and the MSDS contains all the information required by the Controlled Products Regulations.

Mexico: MSDS prepared pursuant to NOM-018-STPS-2000.
